Structural Neutrality

Unlike traditional
advisory firms, STKI
conducts ZERO
consulting work.

100% unbiased research.
No hidden agendas.
No vendor promotion.

Founded in 1992, STKI is the leading business technologies market research and strategic analyst firm in Israel.

Over **34 years of experience** in the IT analyst sector and thousands of annual face-to-face interviews with key industry participants have enabled STKI analysts to establish solid, long-standing relationships with customers.

STKI **customers include major IT organizations** (government, defense, financial institutions, telecoms, manufacturing, medical, education, etc.) and **IT suppliers/vendors** (infrastructure and software suppliers, consulting and professional services firms).

STKI works closely with vendor's senior management (strategy, business development, and marketing). Where **end users are concerned, analysts meet with CEOs, CFOs, CMOs, CDOs and CIOs** (as with all levels of IT decision making) thereby attaining complete **information of their technology as well as their business needs in order to service the account with value**.

STKI's mission is to advise and analyze users of business technologies as well as their suppliers while conducting original research and providing advisory services regarding all parts of the technology puzzle.

STKI services include

- Virtual meetings
- Face-to-Face meetings
- STKI Analyst House Calls (for both users and vendors)
- CIO STKI "Help Desk"
- Inquiries
- Surveys
- Strategic Marketing & Positioning
- Round Tables for users
- **STKI Annual Summit (Israeli Market)**
- Weekly Webinars
- Vendor Innovation Workshops
- CIO Annual Meeting (during the summit)
- COO Community meetings & workshops
- OCIO Community meetings & workshops
- CTO Community meetings & workshops
- Brainstorming (based on Design Thinking) Workshops
- **STKI Annual Summit (Trends)**

Unlike some research and advisory firms

Does no consulting work,
allowing our research to be
totally unbiased, with no
hidden agendas to promote
any particular technology or
vendor

Rankings are based... : **important please read**

Rankings are influenced by new projects, new names and market penetration growth

We rank VENDORS
by REVENUE and
CLIENT MINDSHARE

Our study looks at any
VENDOR VALUE
(products/services)
sold to enterprise's IT
(including government &
security) in Israel;
taking into account
**the client's
mindshare of the
value delivered**

- > **Yearly revenues** of hardware sales and hardware maintenance
- > **Yearly revenues** of software subscriptions & licenses, software maintenance
- > **Differentiation** between new projects and continuing projects (*New projects count more*)
- > **Distinguish** between work done by the **vendor's employees** and work outsourced to other vendors. *The revenue is transferred to the vendor actually doing the work.*
- > **Differentiate** revenues from **projects done in fixed price, cost plus (SLA defined)** , **managed services** and those done by **staff augmentation (non-SLA)** projects.
- > **Differentiate value** of work done by **high level internal** professionals in a project versus that done by **staff augmentation** employees in the client's IT department.
- > We **do not include** any work/ products for **OEMs** and **military non-IT projects**.

Manufacturers/Software Houses, Distributors, VARs NO double bookings for IT Market Size Forecasts

ONLY THE VALUE ADDED COUNTS

Resellers (VARs) get credit **only for their value added** unless the **manufacturer/software house is not present in Israel**, then they get full credit.

Integrators and other Value-Added Service Providers get **credit ONLY for the "services-work" they CONTRIBUTED** TO THE PROJECT.

DISTRIBUTORS (*usually are not shown in our study*) are intermediary reseller entities; between the original **MANUFACTURERS OF HARDWARE PRODUCTS** or **SOFTWARE HOUSES** and other entities in the distribution channel (VARs and INTEGRATORS).

VALUE-ADDED RESELLERS (VARs) offer third party software and hardware to the end user or integrators at a markup, along with a *limited* combination of procurement consulting, configuration, and customization services (*shown in sections **INFRASTRUCTURE** and/or **SOFTWARE***)

INTEGRATORS offer *professional's services* (consulting, developing, implementing or sourcing manpower) in order to deliver enterprise computer services to the organization. (*shown in section **VALUE ADDED SERVICES***).

“Israeli Positioning” for products

NOT a **technological or functional positioning** and **SHOULD NOT** be used as such.
This positioning is intended to reflect **ONLY THE DEGREE** to which a product is **PRESENT AND SUPPORTED IN ISRAEL**

Focused on the enterprise sector (not SMB)

- ▲ **X axis (Market Presence):**

Installed base; New sales; Mindshare

- ▲ **Y axis (Local ISRAELI Support):**

Number and quality of support experts; localization; local R&D

- ▲ **Vendors to watch:** New players that only recently entered the market and therefore cannot be evaluated against longtime players

- ▲ **Global leaders:** positioned according to international analyst's firms analysis
